What will the chemical be used for? (Insert site of experiment or experimental procedure) Who may be exposed?	

Common Risk Control Measures

- **Change the task** - does this task need to be carried out? If so, does it have to be done this way?
- **Change the object** - for example, repack a heavy load into smaller, more manageable parcels
- **Use mechanical aids** - like wheelbarrows, trolleys, conveyor belts, cranes or forklifts
- **Change the workspace** - for example, use ergonomic furniture and make sure work benches are at optimum heights to limit bending or stretching
- **Change the nature of the work** - offer frequent breaks or multi-task
- **Seek proper training** - inexperienced workers are more likely to be injured
